

Title Proper: The John Bertram & Sons Co. Fonds [textual record, graphic material and other material]

Date(s) of creation: 1831-1987, predominant 1866-1930

Physical Description: 3m of textual records
approx. 180 photographs (b&w, colour)
approx. 30 negatives
35 maps
approx. 100 technical drawings
12 ribbons
2 printing plates
6 catalogues
55 notebooks
6 trade journals
1 ledger
23 booklets
3 albums
1 calendar

Administrative history:

The John Bertram & Sons Company was established in 1886 and was dissolved in 1974. The business specialized in the manufacture of machinist tools and wood working machinery for mills and woodworking plants, including lathes, drills, bolt cutters, slotting machines, iron planners, sash and mould machines, scroll saws and others. By 1879, The John Bertram & Sons Company shifted some of its focus as demand for railway equipment grew. By 1888, the company was manufacturing both standard manufacturing machines, planers, shapers, drills, milling machines, in addition to specialized machine tools for the locomotive industry. This shift in production also resulted in the abandonment of the production of woodworking machines. John Bertram & Sons also produced large scale machinery for a number of large civil engineering projects including the Peterborough and Kirkfield lift locks. During the First World War, the John Bertram & Sons Company produced artillery shells for the British Government. The company also took on orders for designing large turbines for hydro-electric power plants. By the 1930's, John Bertram & Sons Company had taken to producing specialized machinery for use in mining. During the Second World War, John Bertram & Sons produced machinery used in the manufacture of armaments rather than producing shells as they had in the First World War. Following the war, the company expanded its lists of machines by producing rubber processing machines, hydraulic presses, and power presses. The company also produced small tools and dies based out of their Pratt and Whitney facility.

The John Bertram & Sons Company had two predecessors; the first in

1860 was McDonald and McKechnie, a short lived partnership that produced a machine shop on Park Street in Dundas. After this shop burned down in 1861, Robert McKechnie formed a partnership with John Bertram and established the Canada Tool Works. This business continued until 1886 when Robert McKechnie dissolved his partnership and retired to private life. At this time, the business name was changed to the John Bertram & Sons Company, although it continued to use and be associated with the name Canada Tool Works. In 1905, the John Bertram & Sons Company merged with the Niles Bement Pond Co. and continued to operate under the name of the John Bertram & Sons Company. In 1926, after asking to be relieved of their interest in the company the Niles Bement Pond Co. sold their stock holdings of John Bertram & Sons back to the Bertram family, with Henry Bertram gaining control of the company. By 1951, the John Bertram & Sons Co. was sold to Russell Industries Ltd., a holding company. In the following years, the company was sold several times, until 1974 when it was purchased by Orenstein & Koppel Canada Limited. Orenstein & Koppel Canada Limited held John Bertram & Sons Co. until 1986 when the factory was closed and the company dissolved.

John Bertram held the position of president of John Bertram & Sons Co. until his death in 1906 when his son Alexander Bertram assumed the presidency of the company. At this time, Alexander's brother Henry Bertram became secretary-treasurer of the company. After his appointment to the Canadian Shell Committee, Alexander Bertram resigned from leading the company and his brother Henry took active control of the organization's operations. In 1926, after the death of Alexander and the purchase of the companies stock from Niles Bement Pond, Henry Bertram officially became President and General Manager of John Bertram & Sons Co. After Henry Bertram, Graham Bertram took the presidency of John Bertram & Sons until the company was sold to Russell Industries Ltd. in 1951.

Custodial history:

The fonds eventually came into the hands of the Bertram family until it was deposited in the Dundas Museum and Archives. The Bertram family made some additions and alterations to the records when they were in their custody. This is evident through some family records have entered the fonds from two sources: Henry Bertram and Janet Bertram Brown. Henry Bertram has made extensive notes on a number of records in the fonds indicating their historical significance to the family and to the business, as well as a few inventories of folder contents. Janet Bertram Brown has made a number of inventory lists that were photocopied and placed with the records. These lists and inventories by the Bertram family have been preserved with the records to show previous arrangements.

Scope and content:

The fonds consists of correspondence, cancelled cheques, tax assessments and receipts, price lists, catalogues, sales orders, purchase receipts, articles of agreement, legal records (including copies of court records, subpoenas and writ of summons), stockholder records (lists of members and amounts of stocks held), Indentures, wage and time records, documents relating to the history of the company, articles of apprenticeship, pension plan records, employee, shop, and machine photographs, personal correspondence, copies of contracts and negotiations, patent records, blueprints for machines and for the factories, lists of machines, employees, sales, purchases, costs, hours, pay, published materials by the company (catalogues, company histories, materials for employees), records relating to artillery shell production, records relating to business trips, property records (including mortgages, tax assessments, indentures, deeds of land, court documents,), maps, technical specifications for machines, printing plates, company brochures, company ribbons, logbooks, notebooks, company bylaws.

The fonds contains a portion of the records of the John Bertram & Sons Company along with some of the records of its predecessors including McKechnie & Bertram. The organization of the records in the fonds was not clear, with some exceptions, when they were described by the archivist. The archivist has arranged the records in the fonds into series that reflect their function or form. When no clear arrangement was evident for the records, they were placed in chronological order within their defined series. There were some exceptions to this that will be listed here. Several series, including: Series 6 - [Purchase Receipts](#) 1866 – 1886; Series 5 – [Correspondence](#) 1866 -1936; Series 26 - Bertram Shell Production 1915 – 1918; Series 30 - [Time Books](#); and Series 37 - Property Records 1831 – 1944 had an original order that could be detected and preserved.

Series 6 - [Purchase Receipts](#) 1866 – 1886 was arranged alphabetically by location purchased from and then chronologically for each location. The Series 5 – [Correspondence](#) 1866 -1936 were arranged alphabetically by geographic location, with some deviations. The records for each geographic location in this series showed no coherent order and have been placed in chronological order. One folder in Series 5 – [Correspondence](#) 1866 -1936 was found arranged according to the date received, this folder was placed last in the series and the inventory includes the business names and geographic locations for each piece of correspondence in the folder.

Series 26 - Bertram Shell Production 1915 – 1918 was entirely held in one binder that preserved their original order by type of shell produced and then chronologically within each sub division. Series 30 - [Time Books](#) appears to have been arranged alphabetically by employee name, with each book in chronological order for each employee. Series 37 - Property Records 1831 – 1944 were arranged in accordion file folders with chronological inventories listed on the outside, the items inside the folders were not preserved in this order however. Upon examination, no coherent order could be detected thus the

original chronological order by property was restored. As noted above when later Bertram indexes or notes have been placed in the material they have been preserved.

One series, Series 14 - [Company Histories](#) 1872 – 1987, showed considerable additional material added by Bertram family members. This material relates to the company and its history so the records have been preserved. Several of the series in this fonds contains materials that relate to other series or functions. The disassociated materials have not been reordered in order to preserve the apparent original order they are often in. In the series list found below these extraneous materials have been noted and linked to their appropriate functional series. A finding aid prepared by Janet Bertram Brown can be found in the Dundas Museum and Archives, showing one of the older arrangements of the records in this fonds.

Fonds contains the following series:

- Series 1 - [McDonald & McKechnie Day Book Dundas](#) 1860 -1863
- Series 2 - [Cancelled Cheques](#) 1867-1873
 - Sub-Series 1 - [Purchase of Mill Race](#) 1873
- Series 3 - [Tax Assessments –McKechnie and Bertram](#) 1869-1874
 - tax assessments are also found in [Correspondence](#) series
- Series 4 - [Price Lists](#) 1869, 1873 -1874
- Series 5 – [Correspondence](#) 1866 -1936
 - Sub-Series 1 - [International Exhibitions](#) 1876 -1895
 - Sub-Series 2 - [The Manufacturers Association](#) 1874 - 1880, 1936
 - Sub-Series 3 - [Merger with Niles, Bement and Pond Company](#)
1894 -1906
 - Sub-Series 4 - [Rectory Lease](#) 1905 - 1920
 - Sub-Series 5 - [Bertram Machine Gun Battery](#) 1915
 - Sub-Series 6 - [Merger with Russell Industries Limited](#) 1951
 - Sub-Series 7 - [Construction of Railroad Switch on Hatt Street](#) 1897
-1899
 - Sub-Series 8 - [Carey Wire Process Sewing Machine Co.](#) 1895
 - Sub-Series 9 - [Robert McKechnie Personal](#) 1876 -1883
 - Sub-Series 10 - [Employment Correspondence](#) 1871 - 1896
 - Sub-Series 11 - [1921 Union Strike](#) 1918 - 1924
 - Sub-Series 12 - [Thomas Baxter](#) 1953
 - Sub-Series 13 - [Letters Regarding Shell Production](#) 1915 - 1918
- Series 6 - [Purchase Receipts](#) 1866 – 1886
 - there are also receipts in the [Correspondence](#) series
- Series 7 - [Articles of Agreement](#) 1876 - 1901
- Series 8 - [Dissolution of Partnership Between McKechnie and Bertram](#) 1886
- Series 9 - [Annual and Monthly Statements](#) 1902 – 1904, 1908
- Series 10 - [Company By Laws](#) 1901 - 1905
- Series 11 - [Stockholder Lists and Shareholder Reports](#) 1919, 1940

- Series 12 - [Subpoena and Writ of Summons](#) 1888 - 1889
- Series 13 - [Cost Analysis](#) 187-
- Series 14 - [Company Histories](#) 1872 - 1987
 Sub-Series 1 - [Inventory of Sealed Box in Corner Stone](#) 1940
 Sub-Series 2 - [Company History Books](#) 1918 - 1944
- Series 15 - [Articles of Apprenticeship](#) 1866 - 19--
- Series 16 - [Wage Leger](#) 1872
- Series 17 - [Lists of Former Employees](#) 1900 - 1948
- Series 18 - [Pension Plan](#) 1940 - 1948
- Series 19 - [Union Submission](#) 1947 - 1948
- Series 20 - [Molders and Founder Workers Union](#) 1948 - 1955
 Sub-Series 1 - [Newspaper Articles](#) 1948
 Sub-Series 2 - [50th Anniversary](#) 1950 - 1955
- Series 21 - [Employee Photographs](#) 1895 - 1953
- Series 22 - [Miscellaneous](#) 1879 - 19—
 Sub-Series 1 - [Miscellaneous Notebook](#) n.d.
 Sub-Series 2 - [Henry Bertram Miscellaneous Notebook](#) 1912 -
 1940
 Sub-Series 3 - [Canada Tool Works Calendar](#) 1904
 Sub-Series 4 - [Funds Drawn from Company by John Bertram](#) [after
 1870]
- Series 23 - [Handbooks and Materials for Employees](#) 1944 - 1953
- Series 24 - [Factory Blue Prints](#) 1886 - 1917
- Series 25 - [John Bertram Patents](#) 1889 - 1911
- Series 26 - Bertram Shell Production 1915 - 1918
 Sub-Series 1 - [Blue Prints, Photographs and Machine Operations](#) 1916-
 1918
 Sub-Series 2 - [Plant Equipment for Bertram 155 mm Shell Work
 Shop](#) n.d.
 Sub-Series 3 - [Draeseke Photographs of machines to produce
 shells](#) n.d.
- Series 27 - [Machine Lists](#) 1915 - 1944
- Series 28 - Publications
 Sub - Series 1 - [Canada Tool Works Brochures](#) 1871 - 18—
 Sub - Series 2 - [Parent Company Publications](#) 1914,1940
 Sub - Series 3 - [Trade Magazines and Journals](#) 1907 – 1945
 Sub - Series 4 - [Machine Instructions](#) n.d.
- Series 29 - [Machine and Factory Photographs](#) 18-- - 1955
 Sub-Series 1 - [Shop Views The John Bertram & Sons Co., Limited](#)
 n.d.
- Series 30 - [Time Books](#)
 Sub-Series 1 – [Monthly Time Books](#) 1882 - 1895
 Sub-Series 2 – [Integrated Time Books](#) 1882 - 1910
- Series 31 - [Order Books](#) 1899 - 1914
- Series 32 - [Price Books](#) 1898 - 1946
